Projects

- **A FULL STACK LOGIN, REGISTER, SET PASSWORD**

This full-stack Register/Login/Logout Authentication System allows users to create accounts, securely log in, and log out. It uses HTML, CSS, and JavaScript on the frontend, with a Node.js + Express.js backend, and MongoDB for the database. Passwords are hashed using bcrypt, and user authentication is handled via sessions or JWT tokens.

- **LIVE WEATHER APP**

Developed a JavaScript-based live weather app that fetches real-time weather data using the OpenWeatherMap API
